## Professional Summary

---

Full Stack Developer experienced in building scalable MERN-stack web applications with real-time features and AI integrations. Skilled in developing responsive frontends, RESTful APIs, authentication systems, and production-ready SaaS platforms.

## Education

---

### B.Tech in Internet of Things (IoT)

2023 – 2027

Madhav Institute of Technology and Science (MITS), Gwalior

## Technical Skills

---

**Languages:** JavaScript, Python, C++, Java

**Frontend:** React.js, HTML5, CSS3, Tailwind CSS

**Backend:** Node.js, Express.js

**Database:** MongoDB, MySQL, Firebase

**Tools:** Git, GitHub, Postman, Vercel, Netlify, Render

**Concepts:** REST APIs, Authentication, CRUD, MVC Architecture, Real-Time Applications

## Full Stack Projects

---

### Inventory SaaS Platform

- Developed full-stack inventory management SaaS platform with real-time tracking and analytics dashboard.
- Integrated AI-powered chatbot for intelligent user interaction and inventory query assistance.
- Implemented authentication, product management, and scalable RESTful backend APIs.
- Tech Stack: React, Node.js, MongoDB.

### AI Portfolio Generator

- Built AI-powered platform generating personalized developer portfolios from uploaded resumes.
- Integrated Groq AI APIs for automated content generation and customization.
- Developed responsive UI using React and Tailwind CSS.
- Tech Stack: React, Node.js, Tailwind CSS, MongoDB.

### Real-Time Chat Application

- Developed Firebase-based real-time messaging system with authentication and live presence tracking.
- Implemented synchronized messaging, unread indicators, and media sharing.
- Tech Stack: React, Firebase, Node.js.

### Imagino — AI Image Generation Platform

- Developed AI-powered web application generating images from user text prompts.
- Integrated external AI inference APIs for dynamic image synthesis.
- Implemented Razorpay payment gateway for premium image generation services.
- Designed responsive frontend with modern UI using Tailwind CSS.
- Tech Stack: React, APIs, Razorpay, Tailwind CSS.

## Experience

---

### LLM Post-Training Intern — Ethara AI

Dec 2025 – Jan 2026

- Worked on evaluation workflows and backend validation processes.
- Assisted in prompt optimization and system testing.

## Achievements

---

- Smart India Hackathon 2025 Finalist
- Team Leader – Hacksagon 2025 (IIITM Gwalior)
- 7th Rank – Code Coalescence
- 4th Rank – IIID Hackathon
