

Sneha Narwaria

Frontend Developer · React.js · JavaScript · B.Tech (IoT) Student

Email: snehanarwaria2@gmail.com | Phone: +91 82692 59036 | LinkedIn: [snehanarwaria](#) | GitHub: [Snehaa-1807](#) | Portfolio: [Link](#)

SUMMARY

Frontend Developer with hands-on expertise in React.js, Next.js, and modern JavaScript, focused on turning complex designs into fast, scalable, production-grade web applications. Shipped **8+ live projects** spanning full-stack platforms, AI-integrated tools, and data-driven interfaces, with strong command of real-time systems, state management, API integration, and UX polish. Completed a **Summer Research Internship at IIT Ropar** in AI/ML research, data analysis, and model evaluation.

EDUCATION

Madhav Institute of Technology and Science (MITS) | *B.Tech — Internet of Things (IoT)*
Gwalior, Madhya Pradesh

Expected 2027

TECHNICAL SKILLS

Frontend & UI: React.js, Next.js, Redux, Context API, HTML5, CSS3, Tailwind CSS, Material UI

Backend & Databases: Node.js, Express.js, MongoDB, MySQL, Firebase

APIs & Authentication: RESTful APIs, JWT Authentication, NextAuth.js, OAuth 2.0

Tools & Deployment: Git, GitHub, Vercel, Netlify, Render, Socket.IO, Leaflet, Razorpay

WORK EXPERIENCE

Indian Institute of Technology (IIT) Ropar | *Summer Research Intern — UI & Data Visualization*
Ropar, Punjab

May 2026 – Jul 2026

- ▶ Conducted research in Artificial Intelligence and Data Engineering, developing and evaluating machine learning techniques to improve model performance across diverse datasets and real-world data distributions.
- ▶ Designed and executed experiments, evaluated model performance using MATLAB, performed comparative analyses, and documented research findings.

Ethara AI | *LLM Post-Training Intern*
Remote

Dec 2025 – Jan 2026

- ▶ Built and refined evaluation workflows and user interfaces for analyzing Large Language Model responses.
- ▶ Conducted prompt engineering and validated model outputs through structured, frontend-driven data collection forms.

PROJECTS

RideXo — Smart Vehicle Booking Platform | *Next.js · TypeScript · MongoDB · Socket.IO · Razorpay*

[Live](#)

- ▶ Built a full-stack ride-booking platform with real-time driver tracking, dual-role dashboards (user & partner), live map rendering using Leaflet and OSRM routing, and OTP-based pickup/drop verification.
- ▶ Engineered real-time communication using Socket.IO (deployed separately on Render) for instant booking notifications, live driver location updates, and in-ride chat between user and partner.
- ▶ Integrated Razorpay payment gateway for online transactions alongside cash payment flow, with NextAuth.js Google OAuth, Cloudinary image uploads, and email OTP via Nodemailer.

Inventory SaaS Dashboard | *React.js · Tailwind CSS · Context API · REST APIs*

[Live](#)

- ▶ Developed a responsive inventory management dashboard using React.js and Tailwind CSS, with Context API for centralized state management and real-time tracking of inventory data.
- ▶ Built reusable UI components and integrated RESTful APIs using Axios, implementing JWT-based request interceptors for secure and consistent client-server communication.
- ▶ Integrated an AI-powered chatbot and interactive Chart.js visualizations to help users access inventory information and analyze stock trends through a streamlined dashboard interface.

AI Portfolio Generator | *React.js · CSS Modules · Groq AI API*

[Live](#)

- ▶ Developed an AI-powered portfolio generator that enables users to create personalized developer portfolios through a responsive, multi-theme React interface.
- ▶ Integrated the Groq AI API to generate structured and personalized portfolio content from user-provided information, reducing the need for manual content creation.
- ▶ Implemented asynchronous API handling, skeleton loaders, React Suspense, and error boundaries to provide responsive feedback and reliable error handling during AI content generation.

ACHIEVEMENTS

- ▶ **Finalist:** Smart India Hackathon 2025
- ▶ **Team Leader & Frontend Lead:** Hacksagon 2025
- ▶ **7th Rank:** Code Coalescence Contest
- ▶ **UI Excellence:** Independently built and deployed 7+ **full-stack interfaces**, each live and actively used by real users.
