

Sneha Narwaria

Software Developer · Full-Stack (React.js/Node.js) · Java | C++ | DSA

Email: snehanarwaria2@gmail.com | Phone: +91 82692 59036 | LinkedIn: [snehanarwaria](#) | GitHub: [Snehaa-1807](#) | Portfolio: [Link](#) | LeetCode: [Sneha_narwaria](#)

SUMMARY

Software Developer with a strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and full-stack web development (React.js, Node.js). Comfortable coding in Java, and C++, with hands-on experience solving DSA problems and building production-grade applications. Shipped **7+ live projects** spanning dashboards, AI-integrated tools, and data-driven interfaces, with strong command of state management, API integration, and system design fundamentals. Currently working on AI/ML research, data analysis, and model evaluation as a Summer Research Intern at IIT Ropar.

EDUCATION

Madhav Institute of Technology and Science (MITS) | *B.Tech — Internet of Things (IoT)*
Gwalior, Madhya Pradesh

Expected 2027

TECHNICAL SKILLS

Languages & CS Fundamentals: Java, Python, C++, JavaScript (ES6+), SQL, Data Structures & Algorithms, Object-Oriented Programming (OOP)

Frontend & UI: React.js, Redux, Context API, HTML5, CSS3, Tailwind CSS, Material UI

Backend & Databases: Node.js, Express.js, MongoDB, MySQL, Firebase

APIs & Authentication: RESTful APIs, JWT Authentication

Tools & Deployment: Git, GitHub, Vercel, Netlify, Socket.IO

WORK EXPERIENCE

Indian Institute of Technology (IIT) Ropar | *Summer Research Intern — UI & Data Visualization*
Ropar, Punjab

May 2026 – Present

- ▶ Conducting research in Artificial Intelligence and Data Engineering, focusing on machine learning techniques for improving model performance across diverse datasets and real-world data distributions.
- ▶ Performing experimentation, and performance evaluation using MATLAB, along with comparative analysis and research documentation.

Ethara AI | *LLM Post-Training Intern*

Dec 2025 – Jan 2026

Remote

- ▶ Built and refined evaluation workflows and user interfaces for analyzing Large Language Model responses.
- ▶ Conducted prompt engineering and validated model outputs through structured, frontend-driven data collection forms.

PROJECTS

Inventory SaaS Dashboard | *React.js · Tailwind CSS · Context API · REST APIs*

Live

- ▶ Developed a responsive inventory management dashboard using React.js and Tailwind CSS, with Context API for centralized state management and real-time tracking of inventory data.
- ▶ Built reusable UI components and integrated RESTful APIs using Axios, implementing JWT-based request interceptors for secure and consistent client-server communication.
- ▶ Integrated an AI-powered chatbot and interactive Chart.js visualizations to help users access inventory information and analyze stock trends through a streamlined dashboard interface.

AI Portfolio Generator | *React.js · CSS Modules · Groq AI API*

Live

- ▶ Developed an AI-powered portfolio generator that enables users to create personalized developer portfolios through a responsive, multi-theme React interface.
- ▶ Integrated the Groq AI API to generate structured and personalized portfolio content from user-provided information, reducing the need for manual content creation.
- ▶ Implemented asynchronous API handling, skeleton loaders, React Suspense, and error boundaries to provide responsive feedback and reliable error handling during AI content generation.

TruthGuard — Fake News Analyzer | *React.js · Responsive Design · Python NLP Backend*

Live

- ▶ Developed a responsive React interface for analyzing user-submitted news content and presenting fake-news credibility predictions generated by a Python-based NLP backend.
- ▶ Integrated frontend and backend services through asynchronous API requests, implementing loading states, error handling, and toast notifications for a smooth user experience.
- ▶ Implemented local storage-based state persistence and responsive dark/light theme support to maintain user preferences across sessions and devices.

ACHIEVEMENTS

- ▶ **Finalist:** Smart India Hackathon 2025
- ▶ **Team Leader & Frontend Lead:** Hacksagon 2025
- ▶ **7th Rank:** Code Coalescence Hackathon
- ▶ **DSA Practice:** Solved **440+ problems** on LeetCode (Easy/Medium/Hard) with a **147-day max streak**.
- ▶ **UI Excellence:** Independently built and deployed **7+ full-stack interfaces**, each live and actively used by real users.
